In addition to the above, we would appreciate having all pending special waste permit forms classified as hazardous or non-hazardous at the time of issuance. We will then be able to advise each hauler of the waste in question as to the acceptability of the waste at our landfill facility.

O
Your prompt attention to this matter will certainly be appreciated.

Dear Mr. Petrilli:

Attached please find a copy of a letter that we recently sent to all waste haulers utilizing our landfill facilities.

As this letter indicates, Land and Lakes Company does not intend to accept any waste materials that will result in classifying our sites as a hazardous waste disposal facility. With this in mind, we would appreciate receiving, upon finalization, any promulgated criteria classifying hazardous waste materials.

Very truly yours,

LAND AND LAKES COMPANY

Gentlemen:

Please be advised that upon adoption of a definition of hazardous waste by the Illinois and U.S. Environmental Protection Agency, Land and Lakes Company will limit their disposal operation to only those waste materials classified as non-hazardous waste.

Since we are presently already selective in the type of materials accepted at our facility, this practice will not affect most of our customers. However, since it is not clear exactly what may or may not be classified as a hazardous waste by the EPA, we felt that you should be advised of our position regarding the disposal of hazardous waste at our facilities.

As soon as the EPA adopts their hazardous waste criteria, we will notify all the affected customers utilizing our disposal facilities.

Very truly yours,

LAND AND LAKES COMPANY
